1000 SERIES

Our 1000 series R.O. can be configured with 1 or 2 membranes offering convenience and user friendly operation. It provides increased efficiency by reducing the boiling time and amount of wood needed to produce maple syrup. This R.O. includes a thoughtfully placed water intake valve at only 8 inches off the ground, allowing for convenient and easy draining. This combination of features results in **PURE CONCENTRATED JOY** for all users.

2000 SERIES

The 2000 Series is the R.O. of choice for producers operating a sugar bush with more than 1000 taps. Built with a stainless steel frame, it can be mounted with a high pressure pump of 3HP-5 GPM or 5 HP-10 GPM. It is also pre-wired to connect two membranes and can go up to 4. The 2000 Series can be combined with our new Remote Control System that allows remote control of your R.O.
